

Swing into Spring with Itchy

Photocopy on paper or cardstock - one set for every 2 students. If desired, colour the cards/Itchy or copy on coloured paper. Have students cut out the cards, keeping the 'spr' card attached to Itchy's head. Divide the cards between the students and have them take turns placing a card down to form an 'ing' word as they build a long Itchy. Re-read all words when finished.

For younger students, do this as a teacher led activity at the board, modeling the blending of the sounds to make 'ing' rhyming words. If able, the students can identify the beginning sound(s).
